

About OST Program Portal

Nonprofit Data Solutions designs and develops powerful yet easy to use data management systems for nonprofit organizations. We call these systems “Program Portals.” Our OST Program Portal empowers OST program leaders to track, manage, and analyze (among other factors):

- Participant/team scheduling, attendance, and performance
- Family contact information, emergency contact records, etc.
- Volunteer scheduling and hours
- Submission of required documentation (physicals, insurance information, etc.)
- Participation in community service and other activities
- Academic performance in school and on standardized tests
- College application, acceptance, and matriculation
- Individual and mass communication histories

PROGRAM PORTAL ADVANTAGES:

Easy-to-use/intuitive – All of our data management systems utilize a simple and clear interface. They are designed to provide the information you need intuitively and quickly. Data can easily be exported to your favorite spreadsheet program for deeper analysis.

Powerful querying and reporting – Our built-in query and reporting functions allow you to easily analyze your organization’s performance in meaningful ways. With a deep understanding of your program’s outcomes, you will be empowered to make high level program decisions and have the data necessary to increase fundraising capacity.

Strong customer service – As a small business, we believe in maintaining close professional relationships with our clients. We solicit feedback toward improving our services to meet your needs. When you need support, you will be able to speak with someone who truly knows you and your organization.

“Nonprofit Data Solutions is almost too good to be true... They are great to work with and have built a data system uniquely tailored to our needs... We are using it every day, and it is definitely making our organization better.”

**-Derek Aguirre
Executive Director
Racquet Up Detroit**

Web-based – Program Portal is hosted online so your users can access it anywhere they have Internet access, and you can rest assured knowing your data is safe and secure.

DonorAdvance integration (optional) – Program Portal integrates seamlessly with DonorAdvance, our powerful yet easy-to-use fundraising management system. If, for example, many of your volunteers are also donors to your organization, you can have all of their volunteer and donor information in one convenient place.
